

HERRAMIENTAS PARA LA VERIFICACIÓN DIGITAL

Raúl Magallón

raul.magallon@uc3m.es

Como señala **Claire Wardle** del Tow Center de la Universidad de Columbia “La verificación es una habilidad clave que es posible llevarla a cabo gracias a herramientas gratuitas en línea y técnicas periodísticas tradicionales”.

En este sentido hay cuatro elementos que es necesario confirmar:

- Procedencia: ¿Es este el archivo original del contenido?
- Fuente: ¿Quién ha subido el contenido?
- Fecha: ¿Cuándo fue creado el contenido?
- Localización: ¿En qué lugar fue creado el contenido?

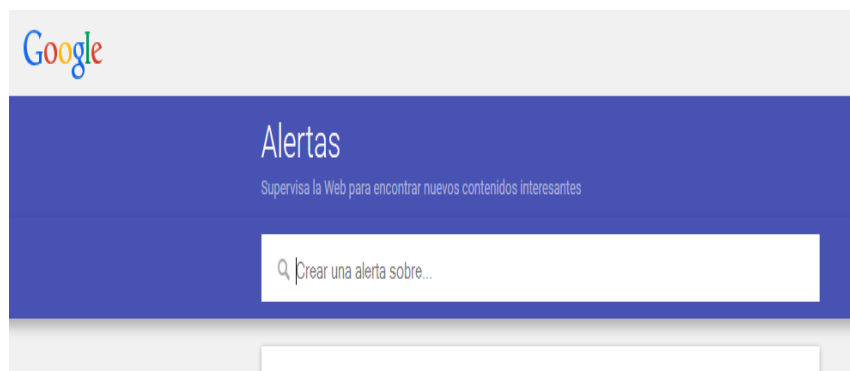

Si deseáis profundizar en el tema, podéis descargaros: [Verification Handbook: A definitive guide to verifying digital content for emergency coverage](#)

Enlace: <http://verificationhandbook.com/>

BÚSQUEDA DE INFORMACIÓN

Entre las herramientas más importantes para la búsqueda de información destacan:

-Google Alerts:

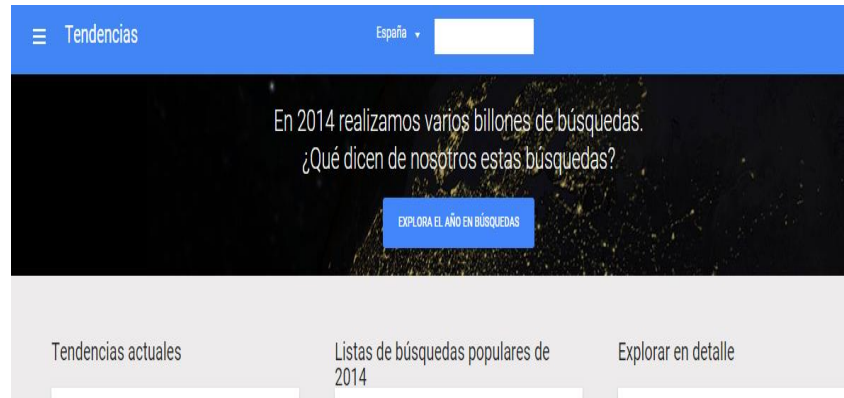

Para crear alertas sobre temas determinados.

<http://www.google.com/alerts>

-Google Trends:

Para analizar las tendencias de búsquedas por temas y fechas.

<http://www.google.com/trends/>

Tutorial: <https://www.youtube.com/watch?v=vGtKAg98ILE>

Búsquedas en 2020: <https://www.youtube.com/watch?v=rokGy0huYEA>

Búsqueda avanzada

Buscar páginas con...

todas estas palabras:

esta palabra o frase exactas:

cualquiera de estas palabras:

ninguna de estas palabras:

números desde el:

hasta

Haz lo siguiente en el cuadro de búsqueda

Escribe las palabras importantes: `terrier ratonero tricolor`

Escribe las palabras exactas entre comillas: `"terrier ratonero"`

Escribe OR entre todas las palabras que quieras:
`miniatura OR estándar`

Añade un signo menos delante de las palabras que no quieras que aparezcan: `-roedor, -"Jack Russell"`

Escribe dos puntos seguidos entre los números y añade una unidad de medida: `10..35 kg, 300..500 euros, 2010..2011`

A continuación, limitar los resultados por...

idioma:

cualquier idioma

Busca páginas en el idioma que selecciones.

región:

cualquier región

Busca páginas publicadas en una región determinada.

última actualización:

en cualquier momento

Busca páginas actualizadas en el periodo de tiempo especificado.

sitio o dominio:

Busca un sitio (como `wikipedia.org`) o limita los resultados a un dominio como, por ejemplo, `.edu`, `.org` o `.gov`.

https://www.google.es/advanced_search

Common search techniques

Search social media

Put `@` in front of a word to search social media. For example: `@twitter`.

Search for a price

Put `$` in front of a number. For example: `camera $400`.

Search hashtags

Put `#` in front of a word. For example: `#throwbackthursday`

Exclude words from your search

Put `-` in front of a word you want to leave out. For example, `jaguar speed -car`

Search for an exact match

Put a word or phrase inside quotes. For example, `"tallest building"`.

Search within a range of numbers

Put `..` between two numbers. For example, `camera $50..$100`.

Combine searches

Put `"OR"` between each search query. For example, `marathon OR race`.

Search for a specific site

Put `"site:"` in front of a site or domain. For example, `site:youtube.com` or `site:.gov`.

Search for related sites

Put `"related:"` in front of a web address you already know. For example, `related:time.com`.

https://support.google.com/websearch/answer/2466433?p=adv_operators&hl=en&rd=1

Técnicas habituales de búsqueda

Buscar por red social

Escribe "`@`" delante de la red social en la que quieras hacer búsquedas. Por ejemplo: `@twitter`.

Buscar por precio

Escribe "`$`" delante de un número. Por ejemplo: `cámara $400`.

Buscar por hashtag

Escribe "`#`" delante de una palabra. Por ejemplo: `#throwbackthursday`.

Excluir palabras de la búsqueda

Escribe "`-`" delante de la palabra que quieras excluir de la búsqueda. Por ejemplo: `velocidad jaguar -coche`.

Buscar una concordancia exacta

Escribe la palabra o la frase que quieras entre comillas. Por ejemplo: `"el edificio más alto"`.

Limitar la búsqueda a un intervalo de números

Escribe "`..`" entre dos números. Por ejemplo: `cámara $50..$100`.

Combinar búsquedas

Escribe "`OR`" entre las consultas de búsqueda. Por ejemplo: `maratón OR carrera`.

Buscar en un sitio concreto

Escribe "`site:`" delante de un sitio web o de un dominio. Por ejemplo: `site:youtube.com` o `site:.gob.es`.

Buscar sitios web relacionados

Escribe "`related:`" delante de una dirección web que ya conozcas. Por ejemplo: `related:elpais.com`.

Zamzar: Paso de PDF a Excel. <https://www.zamzar.com/>

The screenshot displays the Zamzar website's main interface for file conversion. At the top left is the Zamzar logo with the tagline "Online file conversion". To the right of the logo are navigation links: "DEVELOPER API", "MY FILES", "FORMATS", "PRICING", and "HELP". The central area features a three-step process diagram on a blue background with a grid pattern. Step 1, labeled "1" in a green circle, includes a green "Add Files..." button with an upload icon and the text "Drag & drop files, or [select link](#)". Step 2, labeled "2" in a green circle, includes a "Convert To" dropdown menu. Step 3, labeled "3" in a green circle, includes a "Convert Now" button. Below the "Convert Now" button is a checkbox labeled "Email when done?" which is checked. At the bottom of the page, a white bar contains the text "Used by:" followed by logos for "The New York Times", "PRINCETON UNIVERSITY", "DUPONT", and "DAIMLER". On the far right of this bar is the text "Share Zamzar:".

Free Ocr:

Es un programa de reconocimiento óptico para tablas subidas como imagen que permite convertir la imagen a hoja de cálculo.

The screenshot shows the homepage of the Free OCR website. At the top, there's a navigation bar with links: Home, About, FAQ, Privacy, and Contact. To the right of these links is a 'Donate' button and a Creative Commons license icon. Below the navigation bar, the heading 'Welcome to Free OCR' is followed by a paragraph explaining that the service is free and doesn't require registration. It lists supported file formats (JPG, GIF, TIFF, BMP, PDF) and a limit of 10 uploads per hour. A list of supported languages is provided, including Bulgarian, Catalan, Czech, Danish, Dutch, English, Finnish, French, German, Greek, Hungarian, Indonesian, Italian, Latvian, Lithuanian, Norwegian, Polish, Portuguese, Romanian, Russian, Serbian, Slovak, Slovene, Spanish, Swedish, Tagalog, Turkish, Ukrainian, and Vietnamese. At the bottom, there's a section titled 'Upload image for OCR' containing a file selection button, file size and format restrictions, a language dropdown menu set to 'English', and a note about selecting the language for better recognition.

Free OCR

Home About FAQ Privacy Contact [Donate](#)

Welcome to Free OCR

Free-OCR.com is a free online OCR (Optical Character Recognition) tool. You can use this service to extract text from any image you supply.

This service is free, no registration necessary. We also do not need your email address.

Just upload your image files. Free-OCR takes either a JPG, GIF, TIFF, BMP or PDF (only first page).

The only restriction is that the images must not be larger than 2MB, no wider or higher than 5000 pixels and there is a limit of 10 image uploads per hour.

Free-OCR can handle images with multi-column text and also supports more languages: Bulgarian, Catalan, Czech, Danish, Dutch, English, Finnish, French, German, Greek, Hungarian, Indonesian, Italian, Latvian, Lithuanian, Norwegian, Polish, Portuguese, Romanian, Russian, Serbian, Slovak, Slovene, Spanish, Swedish, Tagalog, Turkish, Ukrainian, Vietnamese.

Mi url está en línea y quiero archivar su contenido

archivar

Archive.today ¡es tu máquina personal del pasado!

Toma una instantánea de la página que siempre va a estar en línea incluso si la original desaparece.

Guarda una copia textual y gráfica de la página para mayor precisión.

También acorta la url como lo hacen tinyurl, goo.gl y bit.ly.

Puede guardar sitios web 2.0:

- <https://archive.ph/2020.04.21/rt.live/>
- <https://archive.ph/2014.06.26/google.com/maps/...>

Esto puede ser útil si quieres guardar una fotografía de una página que podría cambiar pronto: un precio, una oferta de trabajo, una oferta inmobiliaria, un post al estar borracho...

Páginas guardadas no van a tener ningún elemento ni scripts activos, ¡te mantienen seguro porque no pueden tener popups o malware!

VERIFICACIÓN EN TWITTER

TweetDeck para verificadores de datos

<https://www.youtube.com/watch?v=DzCHtbMVjHU>

Cómo comenzar a usar TweetDeck

1. Ve a <http://tweetdeck.twitter.com> o abre la aplicación de escritorio para Mac.
2. Inicia sesión con tu cuenta de Twitter. Te recomendamos que uses una cuenta de Twitter que no compartas con otras personas.
3. Cuando hayas iniciado sesión podrás conectar varias cuentas de Twitter a tu cuenta de TweetDeck.

Nota: Si utilizas una versión antigua de nuestra aplicación de escritorio para Mac (anterior a Mac: 3.5.0), no podrás iniciar sesión con una cuenta de Twitter ni crear una cuenta nueva hasta que actualices a la versión más reciente.

Publicidad política en España

Nuestro objetivo es ofrecer más transparencia sobre la publicidad política mostrada en Google, en YouTube y en las propiedades de nuestros partners. En este informe se incluyen anuncios en los que aparecen partidos políticos, actuales dirigentes electos o candidatos a cargos del Parlamento de la UE, cargos nacionales electos de un estado miembro de la UE o del Parlamento del Reino Unido. También se incluyen anuncios con un referéndum para votar, un grupo de campañas de referéndum, o un llamamiento al voto relacionado con un referéndum nacional o un referéndum de soberanía estatal o provincial.

<https://chrome.google.com/webstore/category/extensions?hl=es>

Media Bias/Fact Check Extension

The screenshot shows a Facebook post from the AP News page. The post text reads: "If there's a caravan, I'm going." Back-to-back hurricanes hit Central America with devastating fury this month, and experts worry the region is on the verge of another mass migration. Struggling economies and persistent violence have driven families north in great numbers in recent years.

Below the text is a photo of a flooded street with a person standing in the water and a damaged vehicle.

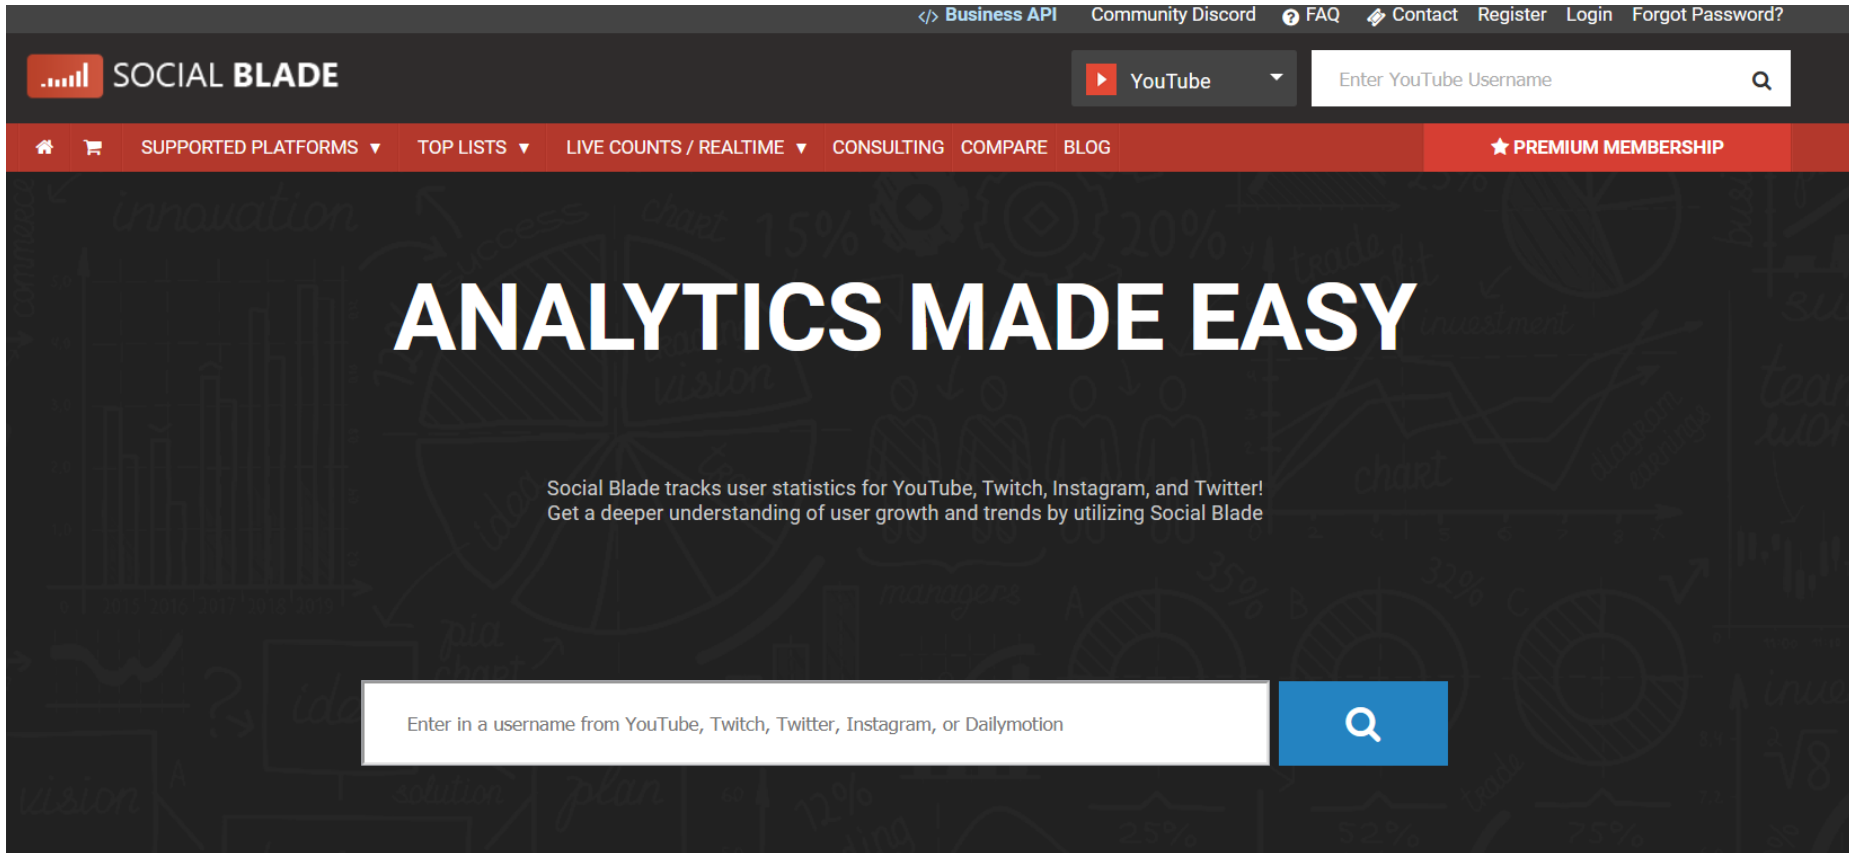

The MBFC extension overlay is positioned below the photo. It features a color-coded bar: blue for 'Factually Very High' and red for 'Least'. The bar shows a rating of 'Factually Very High' with a popularity of 58%. To the right of the bar, there are links: 'Research this subject on', 'See MBFC's report on', and 'Link to MBFC report on this source'.

Below the bar, there are 609 reactions (represented by icons), 250 comments, and 79 shares. At the bottom, there are buttons for 'Like', 'Comment', and 'Share', and a 'Write a comment...' input field.

Red arrows point from text labels to specific features of the MBFC extension:

- 'Show factual rating' points to the blue bar.
- 'Open factualesearch.news to see filtered news on this subject' points to the 'Research this subject on' link.
- 'Link to MBFC report on this source' points to the 'See MBFC's report on' link.

Who posted what?

Idea by [Henk van Ess](#), Developed by [Daniel Endresz](#) and [Dan Nemec](#), GUI by Tormund Gerhardsen | **Follow us on Twitter by clicking on our names.**

NEWS: join the [Facebook Bootcamp](#) on November 7th, Amsterdam.

Open for all people who work for public causes.

1. Getting started

whopostedwhat.com is a non public Facebook keyword search for people who work in the public interest. It allows you to search keywords on specific dates. You are granted access because of your work. We do urge you to donate a small amount of money to keep the server running.

How is it working?

When you want to search on a specific date, you can search only for the year, only the month from a specific year or for a specific date. It is also possible to use two or more keywords like [terror attack paris](#). You can also search in posts who got posted in between two specific dates. It is possible to search in between two years, in between months of different years and in between two specific dates. You can again use more keywords.

2. Get ID

If the ID comes back as '0', wait a few seconds and try again. Sometimes this trips Facebook's anti-scraping flag.

<input type="text" value="https://www.facebook.com/username"/>	<input type="text" value="uid"/>	<input type="button" value="Find"/>

Making sense of online conversations

- Netlytic is a cloud-based text and social networks analyzer that can automatically summarize textual data and discover communication networks from publicly accessible social media posts.
- Netlytic has been in use for over a decade by researchers, educators and students from around the world. It uses APIs to collect publicly accessible posts from Twitter, YouTube and RSS feeds. Netlytic can also support the upload and analysis of users' existing datasets via CSV or Google Sheet.
- Netlytic's Free Tiers 1 & 2 are ideal for teaching and learning about social media analytics, content analysis and social network analysis (SNA).
- Netlytic's User-Supported Tier 3 is designed for researchers and has been widely used to conduct social science research on **online participation and communities**.

[How to use TinEye](#)

A horizontal search bar with rounded ends. On the left side, there is a small magnifying glass icon. On the right side, there is a camera icon and another magnifying glass icon.

Trushar Barot, editor asistente en el centro de redes sociales y contenido generado por usuarios en [BBC News](#), establece los siguientes [principios y herramientas para la verificación de imágenes](#):

Identificar al autor/remitente de la imagen.

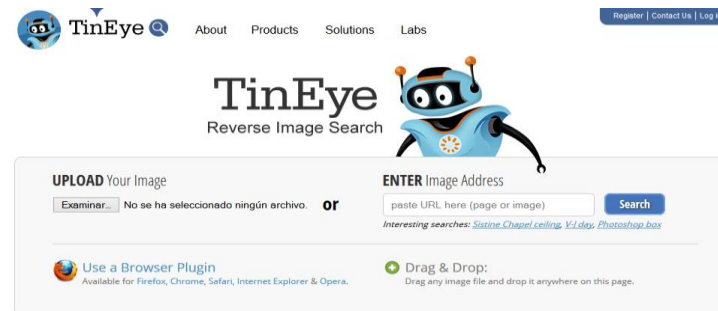

Corroborar la ubicación, fecha y hora aproximada en la que la fotografía fue capturada.

Confirmar que la imagen es aquello que se sugiere o etiqueta.

Obtener el permiso del autor/remitente para utilizar la imagen.

Búsqueda inversa de imágenes de Google o TinEye:

TinEye es un motor de búsqueda inversa de imágenes. Averigua de dónde viene una imagen, cómo se está utilizando, si existen versiones modificadas de la imagen, o si hay una versión de mayor resolución.

This tool remains available so long as I can keep it free and the bandwidth doesn't cost me too much. A gift of thanks is always appreciated, but certainly not required. , or perhaps an Amazon gift certificate (to: jfriedl@yahoo.com), or perhaps send me some good karma by doing something kind for a stranger.

If you have questions about this tool, please [see the FAQ](#).

Fotoforensics.com:

The screenshot shows the FotoForensics.com website. At the top is the logo. Below it, a dark blue header contains the text "Submit a JPEG or PNG picture for Forensic Analysis". The main content area has two input methods: "Image URL:" with a text box containing "http://" and an "Upload URL" button, and "Upload File:" with a file selection button labeled "Examinar..." and an "Upload Picture" button. Below the input fields, there are links for "See the FAQ for submission guidelines" and "See the tutorials for analysis instructions". At the bottom right, it says "Upload images: 764 KB".

Permite hacer un informe de metadatos EXIF.

Online photo EXIF metadata reader

Extract exif data from any jpg online photo, just paste the URL of the photo, no need to upload photos to our server

Photo URL

Go

[From wikipedia:](#) Exchangeable image file format (Exif) is a specification for the image file format used by digital cameras. The specification uses the existing JPEG, TIFF Rev. 6.0, and RIFF WAV file formats, with the addition of specific metadata tags. It is not supported in JPEG 2000, PNG, or GIF. [read more...](#)

Findexif.com:

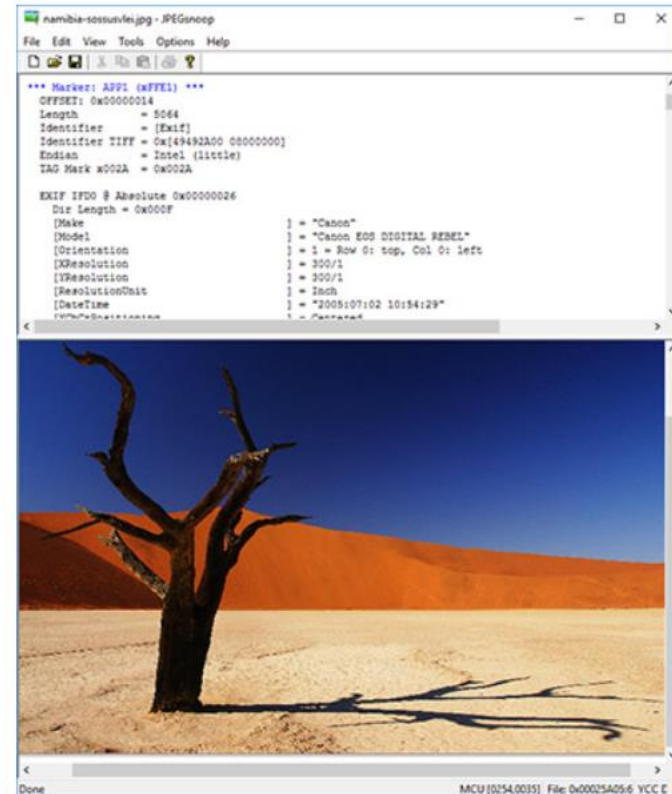

Permite hacer un informe de metadatos EXIF.

Features

- Decode JPEG, AVI (MJPEG), PSD images
- MCU analysis with detailed decode
- Extract embedded JPEG images
- Detect edited images through compression signature analysis
- Report all image metadata (EXIF)
- Batch file processing
- Compression signature detection
- Recover corrupt JPEG image data
- No installation required

Target System

- Windows (MFC)
- Compilation under Visual Studio (Visual C++)

Blur your videos

Save as new feature going away soon: The ability to use the save as new feature when trimming or blurring your video will be discontinued after March 17, 2021. This feature was rarely used and we're removing it to focus on other creator tools. You can [download](#) your edited video and [upload](#) it again to publish your changes.

You can blur parts of your video on a computer in YouTube Studio.

Face blur

1. Sign in to [YouTube Studio](#).
2. From the left-hand menu, select **Content**.
3. Click the video that you'd like to edit.
4. From the left-hand menu, click **Editor**.
5. Click **BLUR PARTS OF YOUR VIDEO** and select **Face Blur**.
6. Once processing is complete, select the faces that you'd like to blur, then click **Apply**.
7. Click and drag the box to adjust the blur.

OTRAS HERRAMIENTAS DE BÚSQUEDA DE INFORMACIÓN

About Wikimapia

What is Wikimapia? How does it work? What you can do?

Wikimapia is a multilingual open-content collaborative map, where anyone can create place tags and share their knowledge.

Our goal is to describe the whole world by compiling as much useful information about all geographical objects as possible, organize it and provide free access to our data for public domain.

It should be plain and simple so that anyone without prior experience with maps could get along, and the descriptions should be as apprehensible and interesting as if you asked a local.

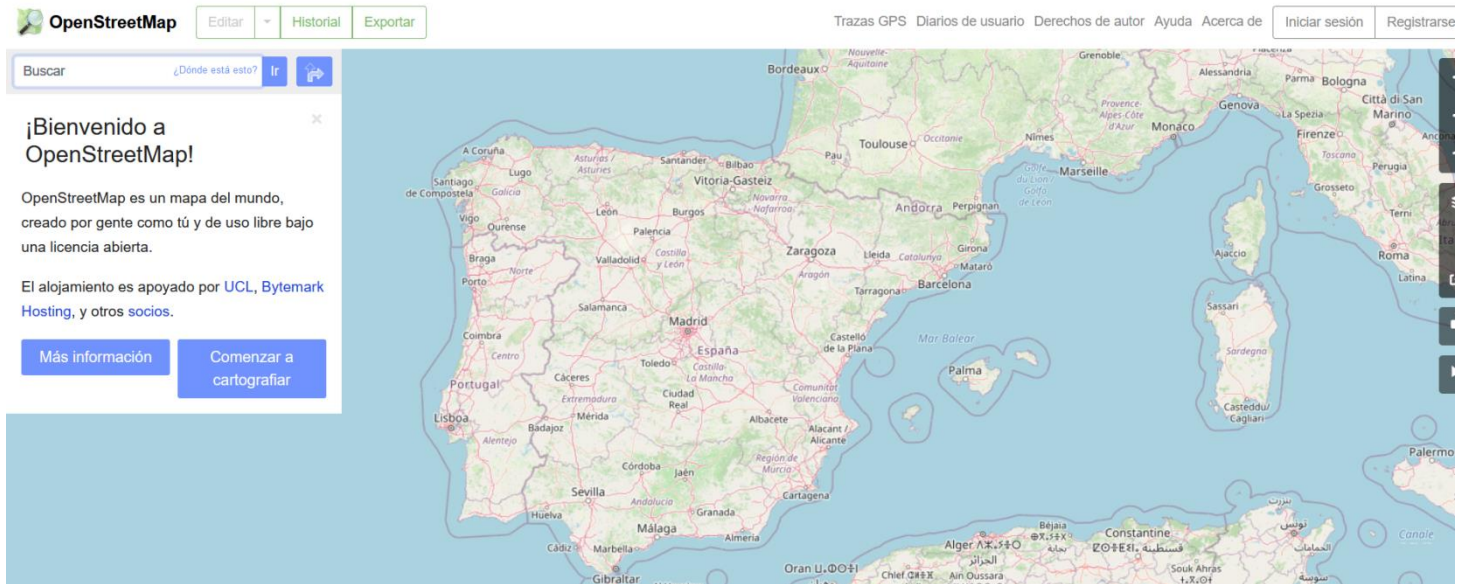

Wikimapia data is wholly made by Internet volunteers, who contribute to the project on their free will. Marking places, adding descriptions provided with proof links, giving them appropriate categories and uploading photos to Wikimapia let people easily share information about the world with their friends or publicly. While contributing, user gains experience and gets access to more advanced tools (e.g., linear features for marking roads, rivers, railroads and ferry routes). A user can also share Wikimapia data to blogs, sites and social networks, as there is an option to put the map on your page.

Wikimapia exists and grows thanks to our users contributions. There is place for everything that can be found on the Earth. You know something about a place, that no one else does? Find it on Wikimapia, you may be surprised with what someone else knows about it, and if it's not marked yet, you can add and describe it yourself - simple tools for map editing are available to all users. You can create place tags for all kinds of static objects and areas, write descriptions and add photos for them, edit existing ones, organize objects in categories for better data structuring, leave short comments, etc.

WhoWhatWhen

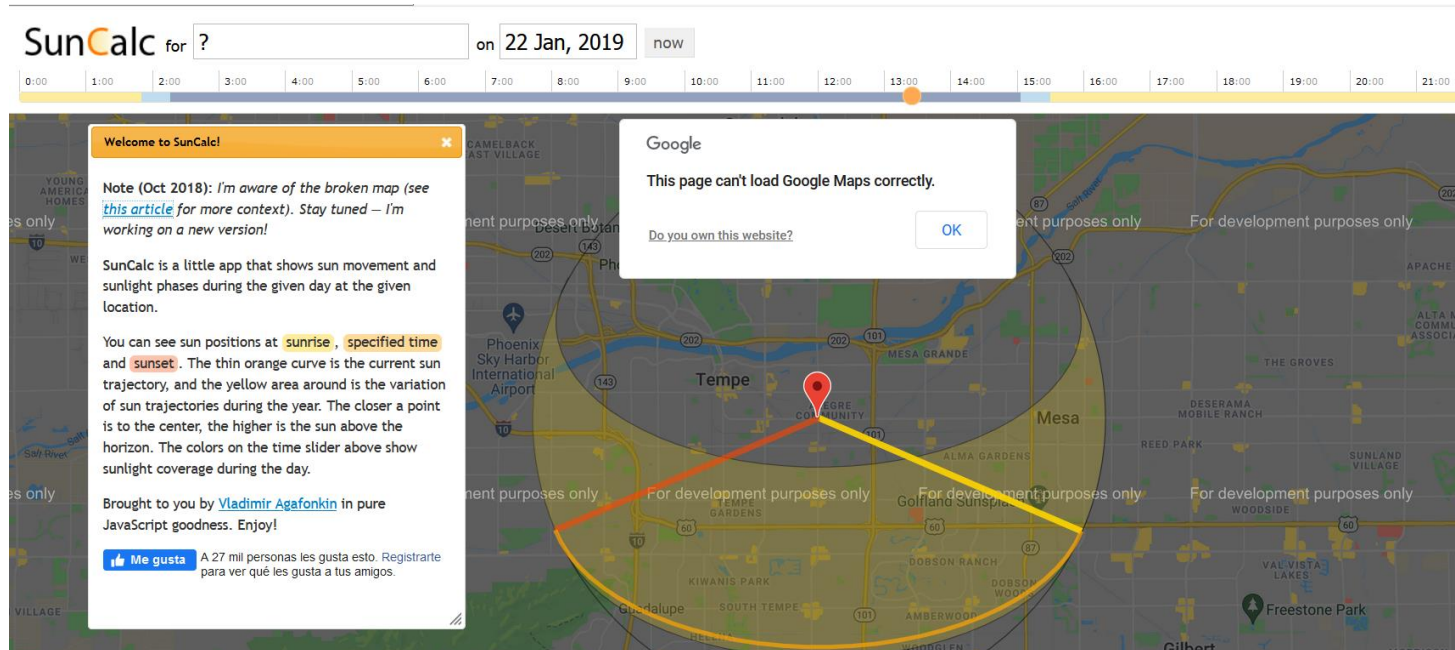

Description: WhoWhatWhen is a database of people and events from 1000 A.D. to the present that can be sorted, compared, and aligned quickly to confirm the accuracy of time/people/event references. You can create graphic timelines that provide context for events and people's lives. Good for confirming if a technology or world event actually happened during someone's lifetime.

WhoWhatWhen: <http://www.sbrowning.com/whowhatwhen/index.php>

SunCalc

SunCalc es una aplicación que muestra el movimiento del sol a lo largo del día en cualquier área del mapa. Esto ayuda a los usuarios a verificar información al hacer coincidir las sombras de los videos con la hora del día en que se tomó el video.
