Herramientas de metodología

Raúl Magallón,
Universidad Carlos III de Madrid

Herramientas de búsqueda:

Entre las herramientas más importantes para la búsqueda de información destacan:

-Google Alerts:

Para crear alertas sobre temas determinados.

<http://www.google.com/alerts>

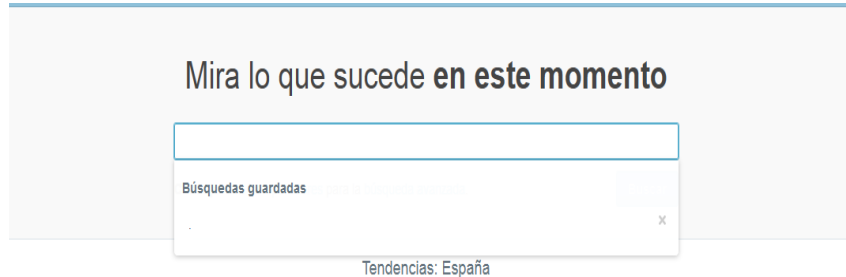

-Google Trends:

Para analizar las tendencias de búsquedas por temas y fechas.

<http://www.google.com/trends/>

-Twitter Search:

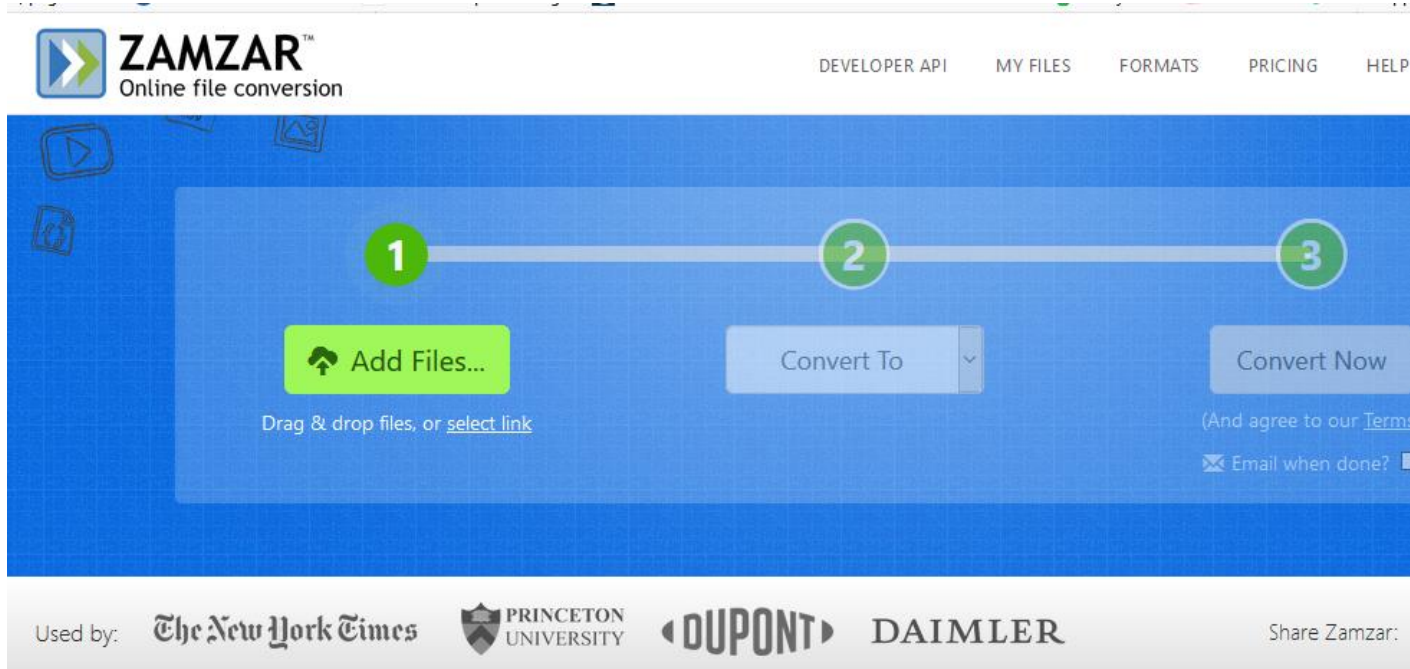

Para ver los temas de interés en el momento de la búsqueda.

<http://twitter.com/search-home>

De esta forma, podremos ver el estado y evolución de acontecimientos de actualidad de forma rápida y accediendo a fuentes fiables.

Extracción limpieza y análisis de datos

Zamzar: Paso de PDF a Excel. <https://www.zamzar.com/>

Free Ocr:

Es un programa de reconocimiento óptico para tablas subidas como imagen que permite convertir la imagen a hoja de cálculo.

The image shows the homepage of the Free OCR website. At the top, there's a navigation bar with links: Home, About, FAQ, Privacy, and Contact. To the right of these links is a 'Donate' button. Below the navigation bar, there's a section titled 'Welcome to Free OCR'. This section contains several paragraphs of text explaining the service: it's a free online OCR tool, no registration is necessary, it supports various image formats (JPG, GIF, TIFF, BMP, PDF), and it has a limit of 10 uploads per hour. It also lists the supported languages. At the bottom of this section is a form titled 'Upload image for OCR'. The form includes a file selection button labeled 'Seleccionar archivo', which shows 'Ningún archivo seleccionado'. Below this, it specifies the maximum file size as '2MB' and lists the supported formats: 'PDF, JPG, GIF, TIFF or BMP'. There is also a language selection dropdown menu currently set to 'English', with a note below it stating 'Select the language of the document to improve recognition of language specific letter variants.'

Home About FAQ Privacy Contact [Donate](#)

Welcome to Free OCR

Free-OCR.com is a free online OCR (Optical Character Recognition) tool. You can use this service to extract text from any image you supply.

This service is free, no registration necessary. (We also do not need your email address.)

Just upload your image files. Free-OCR takes either a JPG, GIF, TIFF BMP or PDF (only first page).

The only restriction is that the images must not be larger than 2MB, no wider or higher than 5000 pixels and there is a limit of 10 image uploads per hour.

Free-OCR can handle images with multi-column text and also supports more languages: Bulgarian, Catalan, Czech, Danish, Dutch, English, Finnish, French, German, Greek, Hungarian, Indonesian, Italian, Latvian, Lithuanian, Norwegian, Polish, Portuguese, Romanian, Russian, Serbian, Slovak, Slovene, Spanish, Swedish, Tagalog, Turkish, Ukrainian, Vietnamese.

Biblioteca de anuncios de Facebook

La **biblioteca de anuncios** ofrece transparencia publicitaria al proporcionar una colección completa en la que se pueden realizar búsquedas y que incluye todos los anuncios que actualmente están en circulación en los productos de Facebook, incluido Instagram. Cualquier persona puede explorar la biblioteca, independientemente de si se tiene una cuenta de Facebook o no.

Puedes acceder a cualquier anuncio activo, incluso aquellos que quizás no se te hayan mostrado porque no formabas parte de la audiencia objetivo del anunciante.
